

III. ‘Across the Drava’ Half Marathon – running and trail running race, hiking and cycling tour

The aims of the event are: to encourage active sport through the opportunities provided by running, cycling and hiking; to provide opportunities for active sport; as well as to raise awareness and shape attitudes regarding the protected natural heritage and traditions of the Drava Valley, the Ormánság region and Duna-Drava National Park, and to enrich the experience of participants in the half-marathon and cycle tour with the tangible sense of good Croatian-Hungarian neighbourhood.

The route of each event crosses either the Drava itself, one of its branches or a tributary.

Further information:

There is no significant elevation gain on any of the routes.

The **short distance** ("Bőköz" run) follows tarmac roads throughout (public roads, cycle paths and tarmac embankments).

The "Kolokán" **trail running** takes participants over a wide variety of terrain: forest paths, dirt tracks, gravel roads, sandy embankments, grassy paths and boardwalks. Only the short section just before the finish line is tarmacked. In wet weather, the route can only be run in trail running shoes; for walking, it is suitable for hiking boots! We will clear overhanging vegetation from the route before the race, but we would still like to draw your attention to the risk of tripping and slipping here too!

The **half-marathon** and cycling routes run largely along the tarmac embankment of the Fekete-víz, with smaller sections on cycle paths and country roads in Hungary and Croatia.

The **relay race** follows a combination of the above distances, with the relay handover point at the race centre.

The organiser reserves the right to change the routes and other race conditions unilaterally and without justification. With regard to the terms and conditions of the race, the information announced on the day of the race at the venue and the [Race Regulations](#) shall prevail.

The event is organised with funding from the INTEREG VI-A Hungary–Croatia Programme.
